

**POTENTIAL HAZARDOUS WASTE SITE
PRELIMINARY ASSESSMENT
PART 1 - SITE INFORMATION AND ASSESSMENT**

I. IDENTIFICATION
01 STATE 02 SITE NUMBER
PA 2685

II. SITE NAME AND LOCATION

01 SITE NAME (Legal, common, or descriptive name of site) Technitrol, Incorporated		02 STREET, ROUTE NO., OR SPECIFIC LOCATION IDENTIFIER 1952 East Allegheny Avenue			
03 CITY Philadelphia	04 STATE PA	05 ZIP CODE 19134	06 COUNTY Philadelphia	07 COUNTY CODE 101	08 CONG DIST 03
09 COORDINATES LATITUDE 5 9° 5 0' 0 2" N LONGITUDE 7 5° 0 6' 4 5" W					

10 DIRECTIONS TO SITE (Starting from nearest public road)

Take I95 South to the Allegheny exit. Take a left at the bottom of the ramp. The site is on the right corner of Emerald and Allegheny Avenues.

III. RESPONSIBLE PARTIES

01 OWNER (If known) Technitrol, Incorporated		02 STREET (Business, mailing, residential) 1952 East Allegheny Avenue			
03 CITY Philadelphia	04 STATE PA	05 ZIP CODE 19134	06 TELEPHONE NUMBER (215) 426-9105		
07 OPERATOR (If known and different from owner) Technitrol, Incorporated		08 STREET (Business, mailing, residential) 1952 East Allegheny Avenue			
09 CITY Philadelphia	10 STATE PA	11 ZIP CODE 19134	12 TELEPHONE NUMBER (215) 426-9105		
13 TYPE OF OWNERSHIP (Check one) <input type="checkbox"/> A PRIVATE <input type="checkbox"/> B. FEDERAL <input type="checkbox"/> C. STATE <input type="checkbox"/> D. 02 SITE STATUS (Check one): <input checked="" type="checkbox"/> A ACTIVE <input type="checkbox"/> B INACTIVE <input type="checkbox"/> C. UNKNOWN		03 YEARS OF OPERATION 1947 Present UNKNOWN <small>BEGINNING YEAR ENDING YEAR</small>			

04 DESCRIPTION OF SUBSTANCES POSSIBLY PRESENT, KNOWN OR ALLEGED

The facility utilizes halogenated and nonhalogenated solvents: MEK, 1,1,1-TCEA, Kester Fluxes, and 60 tin:40 lead mixtures.

05 DESCRIPTION OF POTENTIAL HAZARD TO ENVIRONMENT AND/OR POPULATION

The potential hazard is low because of a lack of targets.

V. PRIORITY ASSESSMENT**01 PRIORITY FOR INSPECTION** (Check one. If high or medium is checked, complete Part 2 - Waste Information and Part 3 - Description of Hazardous Conditions and Incidents)

☐ A HIGH ☐ B. MEDIUM ☐ C LOW ☒ D NONE
(Inspection required promptly) (Inspection required) (Inspect on time available basis) (No further action needed, complete current disposition form)

01 ☐ J. DAMAGE TO FLORA
04 NARRATIVE DESCRIPTION

02 ☐ OBSERVED (DATE _____)

☐ POTENTIAL

☐ ALLEGED

None reported or observed.

01 ☐ K. DAMAGE TO FAUNA
04 NARRATIVE DESCRIPTION (include names of species)

02 ☐ OBSERVED (DATE _____)

☐ POTENTIAL

☐ ALLEGED

None reported or observed.

01 ☐ L. CONTAMINATION OF FOOD CHAIN
04 NARRATIVE DESCRIPTION

02 ☐ OBSERVED (DATE _____)

☐ POTENTIAL

☐ ALLEGED

None reported or observed.

01 ☒ M. UNSTABLE CONTAINMENT OF WASTES
(Solid, liquid, sludge, slurry, or gas)
03 POPULATION POTENTIALLY AFFECTED: unknown

02 ☒ OBSERVED (DATE 12-22-89)

☐ POTENTIAL

☐ ALLEGED

04 NARRATIVE DESCRIPTION

Thirty gallons of No. 2 fuel oil spilled onto the macadam parking lot. Oil was cleaned up before it reached the Philadelphia sewer system.

01 ☐ N. DAMAGE TO OFFSITE PROPERTY
04 NARRATIVE DESCRIPTION

02 ☐ OBSERVED (DATE _____)

☐ POTENTIAL

☐ ALLEGED

None reported or observed.

01 ☒ O. CONTAMINATION OF SEWERS, STORM DRAINS, WWTPs
04 NARRATIVE DESCRIPTION

02 ☐ OBSERVED (DATE 12-22-89)

☒ POTENTIAL

☐ ALLEGED

Thirty gallons of No. 2 fuel oil spilled onto the macadam parking lot. Oil was cleaned up before it reached the Philadelphia sewer system.

01 ☐ P. ILLEGAL UNAUTHORIZED DUMPING
04 NARRATIVE DESCRIPTION

02 ☐ OBSERVED (DATE _____)

☐ POTENTIAL

☐ ALLEGED

None reported or observed.

05 DESCRIPTION OF ANY OTHER KNOWN, POTENTIAL OR ALLEGED HAZARDS

None reported or observed.

III. TOTAL POPULATION POTENTIALLY AFFECTED: 129,709 within a 3-mile radius.

IV. COMMENTS

Technitrol, Incorporated is a cleanly operated facility.

V. SOURCES OF INFORMATION (See specific references, e.g., 1210, 1402, 1403, 1404, 1405, 1406, 1407, 1408, 1409, 1410, 1411, 1412, 1413, 1414, 1415, 1416, 1417, 1418, 1419, 1420, 1421, 1422, 1423, 1424, APPENDIX A

EPA **U.S. ENVIRONMENTAL PROTECTION AGENCY** **NOTIFICATION OF HAZARDOUS WASTE ACTIVITY**

INSTRUCTIONS: If you receive this form after it is the result of an inspection, the information on this form is incorrect. Please check for and correct the information before completing and filing this form. If you are not receiving a pre-printed label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

ACKNOWLEDGEMENT OF NOTIFICATION
OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

THOMAS J. FLAKOLL
GENERAL MANAGER

B. SIGNATURE

Thomas J. Flakoll

C. DATE SIGNED

NOVEMBER 17, 1980

Technitrol, Inc.

November 17, 1980

EPA Region III
P.O. Box 1480
Philadelphia, Pa. 19107

Attention: Director EPA Region III

Technitrol is a manufacturer of electronic products and systems such as transformers, pulse transformers, delay lines, and other types of components and systems.

During the course of manufacture we use several of the halogenated chlorinated fluorinated solvents, and the non-halogenated solvents. These are basically used in cleaning parts during their manufacture.

We generate wastes, F001 and F003 on a more or less fluctuating volume basis depending upon type of product being produced at that certain time.

We are not a hazardous waste storage or disposal facility, we only accumulate and store our own hazardous wastes on-site as they are generated; which are then disposed thru licensed, EPA registered disposal facilities (TSDF'S). Maximum storage, at any time, shall be 50 drums of combined wastes (55 gallon drums).

We are applying for this hazardous waste permit for storing our own accumulated wastes for a longer period of time (greater than the exempt period of 90 days) for several reasons:

1. Emergency hazardous waste storage (prior to approved disposal) from two of our other facilities (which will be operated on an exempt status), in event that approved disposal facilities cannot be obtained during any 90 day period to comply to the exempt status requirement.
2. Disposal of hazardous wastes in larger accumulated volumes is more economical and costs less.
3. Several years ago, we installed two (2) holding tanks, of 400 gallon capacity each, at this location for storing 1,1,1, Trichloroethane used in vapor degreasing and as a general cleaning solvent.

Periodically, one of these 400 gallon tanks is filled with virgin or reclaimed (recycled) 1,1,1, Trichloroethane; while the other 400 gallon tank into which we store spent, waste, used, 1,1,1, Trichloroethane is emptied into the tank truck and removed for reclaim (recovered).

We shall collect and recover spent (used) 1,1,1, Trichloroethane from our other two facilities, Petersburg, Pa. and Greensboro, Md. at Philadelphia using the above method of use, storage, and recovery.

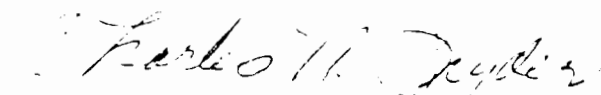

4. We intend to begin recovery of spent Fluoro/Chloro Carbon Solvents; such as Freon TF, Freon TE35, thru outside processors, similar to the above item 3; these are quite expensive in the virgin state. Most recovery processors require a minimum quantity of these spent solvents for economical processing; for this reason we will require a more prolonged period of accumulation than the exempt 90 day period for disposal.

The Fluoro/Chloro carbon wastes, intended for recovery, will be collected, stored at the Philadelphia location, then processed.

Waste streams, other than those intended for recovery, at our Petersburg, Pa. EPA PAD0816210 location; and our Greensboro, Md. EPA MDD000739680 location shall be processed per RCRA procedures on an exempt status of 90 day disposal directive.

The Philadelphia location EPA PAD002300556 makes application for an interim hazardous waste storage permit, as has been outlined above. Part A, Form 1 and Form 3 is attached with all applicable information.

I Thank You,

Charles H. Snyder

FOR OFFICIAL USE ONLY

APPLICATION APPROVED DATE RECEIVED (yr., mo., & day) COMMENTS

II. FIRST OR REVISED APPLICATION

Place an "X" in the appropriate box in A or B below (mark one box only) to indicate whether this is the first application you are submitting for your facility or a revised application. If this is your first application and you already know your facility's EPA I.D. Number, or if this is a revised application, enter your facility's EPA I.D. Number in Item I above.

A. FIRST APPLICATION (place an "X" below and provide the appropriate date)

1. EXISTING FACILITY (See instructions for definition of "existing" facility. Complete item below.)

2. NEW FACILITY (Complete item below.)

FOR EXISTING FACILITIES, PROVIDE THE DATE (yr., mo., & day) OPERATION BEGAN OR THE DATE CONSTRUCTION COMMENCED (use the boxes to the left)

FOR NEW FACILITIES, PROVIDE THE DATE (yr., mo., & day) OPERATION BEGAN OR THE DATE CONSTRUCTION COMMENCED (use the boxes to the left)

B. REVISED APPLICATION (place an "X" below and complete item I above)

1. FACILITY HAS INTERIM STATUS N.A.

III. PROCESSES - CODES AND DESIGN CAPACITIES

A. PROCESS CODES: Enter the code from the list of process codes below that best describes the process(es) occurring at your facility. If more than one process is occurring, enter the code(s) in the space provided. If you are not sure of the code, enter "N.A." in the space provided. If you are not sure of the code, enter "N.A." in the space provided.

B. PROCESS DESIGN CAPACITIES: Enter the design capacity for each process in column A below.

1. AMOUNT OF WASTE: Enter the amount of waste in column B(1), and the unit of measure in column B(2). If you are not sure of the unit of measure, enter "N.A." in column B(2).

2. UNIT OF MEASURE: Enter the unit of measure in column B(2). If you are not sure of the unit of measure, enter "N.A." in column B(2).

PROCESS	CODE	DESIGN CAPACITY
Storage:		
CONTAINER STORAGE	D01	GALLONS OR LITERS
TANK	D02	GALLONS OR LITERS
WASTE PILE	D03	CUBIC YARDS OR CUBIC METERS
SURFACE IMPONDEMENT	D04	GALLONS OR LITERS
Disposal:		
INJECTION WELL	D71	GALLONS OR LITERS
LANDFILL	D60	ACRE-Feet (the volume that would cover one acre to a depth of one foot) OR HECTARE-METER
LAND APPLICATION	D81	ACRES OR HECTARES
OCEAN DISPOSAL	D82	GALLONS PER DAY OR LITERS PER DAY
SURFACE IMPONDEMENT	D83	GALLONS OR LITERS

UNIT OF MEASURE	CODE	UNIT OF MEASURE	CODE	UNIT OF MEASURE	CODE
GALLONS	G	LITERS PER DAY	L	ACRE-Feet	A
LITERS	L	TONS PER HOUR	T	HECTARE-METER	H
CUBIC YARDS	Y	METRIC TONS PER HOUR	M	ACRES	A
CUBIC METERS	C	GALLONS PER HOUR	G	HECTARES	H
GALLONS PER DAY	M	LITERS PER HOUR	L		

EXAMPLE FOR COMPLETING ITEM III: Above is the number X-1 and X-2 below. A facility has a generator that can hold 400 gallons. The facility has an incinerator that can burn up to 20 gallons per hour.

LINE NUMBER	A. PROCESS CODE (from list above)	B. PROCESS DESIGN CAPACITY	UNIT OF MEASURE (enter code)	FOR OFFICIAL USE ONLY	C. PROCESS CODE (from list above)	D. PROCESS DESIGN CAPACITY	UNIT OF MEASURE (enter code)

1	S Q 1	2,750 GALLONS 50 DRUMS (55 GAL. EA.)	G				N.A.
2	S 0 2	400	G				N.A.
3	S 0 2	200	G				N.A.
4							

III. PROCESSES (continued)

SPACE FOR ADDITIONAL PROCESS CODES FOR DESCRIBING OTHER PROCESSES (code 1000) FOR EACH PROCESS ENTERED HERE
INCLUDE DESIGN CAPACITY.

STORAGE ONLY, BEFORE DISPOSAL THRU LICENSED, REGISTERED EPA
DISPOSAL FACILITIES. MAXIMUM STORAGE CAPACITY 50 DRUMS
(55 GAL. EA.).

IV. DESCRIPTION OF HAZARDOUS WASTES

A. EPA HAZARDOUS WASTE NUMBER — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.

B. ESTIMATED ANNUAL QUANTITY — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

C. UNIT OF MEASURE — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE CODE
POUNDS P
TONS T

METRIC UNIT OF MEASURE CODE
KILOGRAMS K
METRIC TONS M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

D. PROCESSES**1. PROCESS CODES:**

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item IV-1 to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed hazardous waste: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "0000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and designating the processes to be used to treat, store, and/or dispose of the waste.
2. In column A of the next line enter another EPA Hazardous Waste Number that can be used to describe the waste. In column B(2) on that line enter "included with above" and enter the Waste Number that can be used to describe the hazardous waste.
3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING THE FORM: In line numbers X-1, X-2, X-3, and X-4 below — A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from plating and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

LINE NO.	A. EPA HAZARDOUS WASTE NO. (enter code)	B. ESTIMATED ANNUAL QUANTITY OF WASTE	C. UNIT OF MEASURE (enter code)	D. PROCESSES	
				1. PROCESS CODES (enter)	2. PROCESS DESCRIPTION (if a code is not entered in D(1))
X-1	K 0 5 4	900	P	T 0 3 D 8 0	
X-2	D 0 0 2	400	P	T 0 3 D 8 0	
X-3	D 0 0 1	100	P	T 0 3 D 8 0	
X-4	D 0 0 2				

NOTE: Photocopy this page before completing if you have more than 26 wastes to list.

EPA I.D. # PAD002300556

December 23, 1980

Technitrol Inc.
Mr. Charles Snyder
1952 East Allegheny Ave.
Phila., Pa. 19134

Re: Acknowledgment of Application for
a Hazardous Waste Permit

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility located at the address shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980. While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

Technitrol, Inc.

February 9, 1981

U. S. Environmental Protection Agency
Region III

Philadelphia, PA 19106

Attention: Mr. Robert Greaves, 3EN21

Dear Sir:

Technitrol, Inc., has been located at 1952 East Allegheny Avenue since the fall (about September) of 1956.

In form 3, under A-1 (existing facility) was left blank because with the advent of the regulatory deadline date (November 19, 1980) it has been assumed that any manufacturer who stored his on-site generated hazardous wastes after that date in excess of the allowance accumulation permitted in exempt status, was considered a storage facility, and must apply for an interim permit to continue storage of our own generated hazardous wastes. I had filled in A-2 with that presumption.

Since year 1956, we have been storing our wastes and disposing of them to the best of our knowledge through legitimate reliable disposal companies.

I had attached a letter with the required forms for application of an interim permit for storage, fully describing our facility, intent and operation at this facility. I am again forwarding a copy of that letter.

We are not a hazardous waste treatment, storage or disposal company. We had applied for the interim permit so that we can store hazardous waste accumulations generated here (at Philadelphia) and if required wastes generated by our other two (2) plants in Petersburg, Pa. and Greensboro, Md., in excess of the 1,000 kilo gram quantities, or 90 day periods prior to proper disposal through accredited, permitted or licensed treatment, storage or disposal facilities.

Sincerely,

Charles H. Snyder

Re: Hazardous Waste Permit Application--Incomplete Application
EPA I.D. Number: PAD 00 230 0556
Facility Name: Technitrol, Inc.
Facility Location: 1952 East Allegheny Avenue
Philadelphia, PA 19134

Dear Mr. Griffith:

The Environmental Protection Agency (EPA) has reviewed for completeness Part A of a RCRA permit application for the facility referenced above. The Agency has determined that the Part A permit application is incomplete. The items we found missing from the application are marked on the enclosed check list. All missing items marked with an asterisk (*) should be completed on the application form and the form returned to this office by April 17, 1981.

If the applicant fails or refuses to correct the deficiencies in the application within the time set forth above, the Agency may (1) determine that the applicant failed to qualify for interim status; (2) deny the permit; and (3) commence enforcement action under applicable statutory authority, including Section 3008 of the Resource Conservation and Recovery Act.

If you have any questions, please contact Joan Henry on (215) 597-8751 or Bill Walsh on (215) 597-1230.

Sincerely yours,

A handwritten signature in cursive script, reading "Shirley D. Bulkin", is written over the typed name.

Dear Joan:

The following changes were made, or omissions corrected:

Form I - Item VIII (B) marked yes box.

Form 3 - Item II (A-1) changed to existing facility and entered date.
(A-2) deleted (as explained in letter of Feb.9, 1981)

Item III (B) process design capacity

1 amount

2 unit of measure

Line 1 50 drums (55 gal. ea)

G

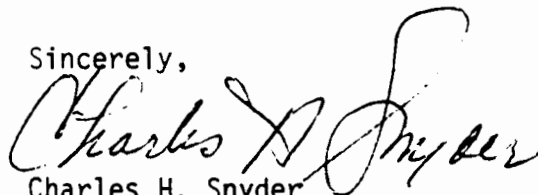

As explained in letter of Nov.17, 1980; Para.4 and item 3.

Also explained in item III, C.

I cannot imagine where the name Mr. Griffith came from which is entered in your letter of March 17th. We do not have a Mr. Griffith with us.

I attached copies of our previous correspondence, which I make reference to, along with the corrected application.

Sincerely,

Charles H. Snyder

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION III

6TH AND WALNUT STREETS
PHILADELPHIA, PENNSYLVANIA 19106

JUL 28 1981

Mr. T. J. Flakoll
Technitrol Incorporated
1952 East Allegheny Avenue
Philadelphia, PA 19134

Dear Mr. Flakoll:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

If you have any questions concerning this letter, please write to the address shown or call Bill Walsh at 215/597-1230.

Sincerely yours,

Shirley D. Bulkin

Enclosure

CONDITIONS OF OPERATION DURING
INTERIM STATUS

Date Prepared: July 28, 1981

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

I. Facility name, location, and EPA Identification Number.

Name: Technitrol Incorporated

Location: 1952 East Allegheny Avenue
Philadelphia, PA 19134

EPA I.D. No.: PAD 00 230 0556

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265.

Owner's Name: Mr. T. J. Flakoll - General Mgr.

Operator's Name:

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated.

<u>PROCESS</u>	<u>DESIGN CAPACITY</u>
<u>S01</u>	<u>2750 Gals.</u>
<u>S02</u>	<u>400 Gals.</u>
<u>S02</u>	<u>200 Gals.</u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid waste exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers.

Dear Mr. Snyder:

This letter acknowledges EPA's receipt of your written request for an extension in the time period for submission of the completed U.S. Environmental Protection Agency Hazardous Waste Questionnaire corresponding to the EPA Identification Number referenced above.

At this time, I am authorized to extend the deadline for submission of the above referenced questionnaire until November 1, 1982 (post-mark date).

If you have any further inquiries regarding the questionnaire or filing procedures, please contact our toll-free Questionnaire Assistance Center at 800-638-8985.

Sincerely,

George A. Garland

George A. Garland

To: Arv Nadkarni
From: Charles Snyder
Subject: Hazardous Wastes Questionnaire, Washington, D.C.

The questionnaire sent us from RCRA in Washington shows no applicable form for the type of storage permit we had applied for originally. This questionnaire specifically applies to transportation, storage, disposal facilities which does not characterize Technitrol at all.

We had originally applied for a permit to store our own hazardous wastes generated at the Petersburg, Pa. Plant, the Greensboro, Md. Plant and here in Philadelphia, to an accumulation volume up to 55 drums (55 gallon each) before we dispose of these through a RCRA permitted, licensed TSDF. I feel that we should retract the original concept for Philadelphia and consider it as a small volume generator of hazardous wastes, even though we may be required to accumulate wastes from our other two plants, provided we observe to the small volume generator rule.

As a small generator, we are permitted to accumulate up to 1000 kilograms of hazardous waste (about 2,500 lbs.) after which time an accumulation date must be posted on every container in storage; and thereafter, all accumulated hazardous wastes (quantity unlimited) must be disposed of properly through a RCRA permitted, licensed, TSDF (Transportation, Storage, Disposal Facility) within a 90 day period after the posted accumulation date.

Fill out the EPA Hazardous Waste Questionnaire Page 1, question no. 1; and Page 2, question no's. 2 and 3, circle a. (01) and submit application certified mail to George Garland in envelope provided.

Re: EPA Identification No. PAD002300556
Facility Name: Technitrol, Inc.
1952 East Allegheny Avenue
Philadelphia, PA 19134

Dear Mr. Snyder:

This letter constitutes a formal request for Part B of your application for Hazardous Waste Management Facility Permit under the Hazardous Waste Management Regulations, 25 PA Code Chapter 75, Subchapter D, for the facility referred above. This request is made under the authority of Section 75.265(z)(6) of the regulations. You should refer to the hazardous waste management regulations that appeared in the Pennsylvania Bulletin dated September 4, 1982, which was recently mailed to you for the requirements of the Part B application. Your Part B application must be submitted no later than September 1, 1983. If there is information that is being claimed as confidential, indicate this according to the requirements of Section 75.265(z)(16).

If your facility is not a TSD (treatment, storage or disposal site), or if you stopped functioning as a TSD facility after November 19, 1980, or if you qualify under the Permit by Rule provision of the regulations, it will be necessary for you to contact one of our field offices, and to arrange for an inspection to confirm this. Our field offices and the areas covered are the Bethlehem Office, phone number 861-2070, covering Berks, Lehigh and Northampton Counties; and the Norristown Office, phone number 631-2420, covering Philadelphia, Bucks, Chester, Delaware and Montgomery Counties.

If you functioned as a TSD after November 19, 1980, it will be necessary for you to submit four copies of a closure plan to Mr. Bruce Beitler of this office.

Enclosed are reference checklists for your Part B application that are to be used to insure your application contains the minimum information required. These checklists are to be used to assist you in your Part B application and our subsequent review, although the checklists are not a substitute for reviewing and addressing the hazardous waste regulations themselves. Because you may be anticipating additional facilities at your location, we have included checklists for every type of facility covered by the Department requirements. Please use only those checklists that apply to the types of facilities for which you are making application.

Your Part B application will be reviewed for a hazardous waste management TSD Permit by both the U. S. Environmental Protection Agency and the Department of Environmental Resources until the Commonwealth of Pennsylvania receives Phase II Interim Authorization under the RCRA Program to solely administer a permitting program.

You should submit the Part B application to both agencies for their concurrent review. This would require that the hazardous waste requirements under Pennsylvania regulations as well as the hazardous waste management requirements under the Federal program would have to be addressed.

When completed, please transmit your application and five copies (or seven copies if there is an incineration facility) to our office, and if you have any questions or desire to have a pre-application conference, please contact Mr. Lawrence H. Lunsik, Solid Waste Facilities Supervisor, at the letterhead address, or by calling 215 631-2420.

Very truly yours,

WAYNE L. LYNN
Regional Solid Waste Manager

NOTICE OF VIOLATION

Re: Application No. PAD002300556

Dear Mr. Snyder:

In a letter dated March 8, 1983, the Department of Environmental Resources made a formal request for your Part B application for a hazardous waste management facility permit. This application was required to be submitted to the Department no later than September 1, 1983, which was six months after the date of the request. Since you have not submitted the Part B application within the required time, you are in violation of the Department's hazardous waste facility regulations as set forth in 25 Pa. Code Section 75.265(z)(6).

Within 14 days please submit to the Department your Part B application for your hazardous waste management facility permit or explain your reasons for believing that your facility is not subject to the requirements of Section 75.265(z)(6). If you are no longer functioning as a hazardous waste treatment storage or disposal facility you will have to submit a revised notification form indicating your change in status. Upon receipt of this information confirmation will be made by our staff. Contact Mr. James Nolan at 631-2420 to obtain these forms.

ATTN: JOAN HENRY

Dear Joan:

Late in October of 1982, I had sent an interoffice memo to one of our people, who was assigned to answer the questionnaire for EPA Washington, which was requested by George Garland of the Analysis Branch. Soon after he received this memo, unfortunately, he left our company and this was left hanging.

Early in March 1983, we had requested an inspection by PA D.E.R. to verify that we have retracted our position for Licensing as TSDF, which as explained in my memo, was not characteristic of what Technitrol wished to do, only store our own waste, until disposal through a licensed TSDF; so we had been classed as a small volume generator, as shown by the PA D.E.R. Report of 3/31/83. The Philadelphia plant and the Petersburg plant are both a small volume generator and also the Greensboro, MD plant shall abide by and operate as small volume generators.

The two (2) storage tanks at the Philadelphia plant have been removed from the premises, no storage shall be kept of reclaimable wastes. This was the purpose of the two (2) four hundred (400) gallon tanks, one (1) for reclaimed 111, Trichloroethane, and one for spent 111, Tri which was collected by the vendor. This was not manifested when our vendor removed it for reclaim (mentioned in the D.E.R. Report).

We, even as a small generator, are using the Manifest system to dispose of our hazardous waste or reclaimable spent solvents, as records of quantities generated.

I am sending you a copy of our PA D.E.R. Inspection and my internal in house memo of October 25, 1982 of which EPA Analysis branch chief, Mr. George A. Garland had received previously.

Re: Identification No. PAD002300556

Dear Mr. Sikorski:

It has been determined by our staff that you are not a TSD facility or that you qualify under the permit by rule provision in our hazardous waste management rules and regulations.

Therefore, you will not have to submit a Part B hazardous waste permit application and we are returning your Part A application if you previously submitted one to the Department.

This means you no longer have interim status as a TSD facility and you may not engage in this type of activity at your facility. You will not be required to secure a hazardous waste management permit for your facility, but you are still subject to any portion of the hazardous waste management rules and regulations published in the Pennsylvania Bulletin September 4, 1982 which pertain to your facility. This includes the submission of a closure plan if you operated as a treatment storage or disposal facility after November 19, 1980.

If you qualify under the permit by rule provision of the regulations then you may continue to operate as a hazardous waste facility in accordance with RCRA or local sewer authority requirements.

This does not release you from Environmental Protection Agency requirements. You will have to contact their Philadelphia Regional Office to verify that you do not have to submit a Part B application to their agency.

If you have any questions concerning this, I can be reached at the above number.

Very truly yours,

Re: PAD 002300556

Dear Mr. Sikorski:

Sections 3004(u) and 3008(h) of the Hazardous and Solid Waste Amendments of 1984 (RCRA Reauthorization) give EPA the authority to require corrective action for all releases of hazardous wastes or constituents from any solid waste management unit ("SWMU") as defined on the enclosed sheet. This requirement applies to operating units, inactive units, as well as those that are closing or have been closed in the past.

EPA and the State must first determine the location of all SWMUs at your facility. Next, we must determine whether or not any "releases" (see definitions) originated at these units. In order to enable us to make these determinations, you must provide the following information:

- (1) A topographic map showing the facility and a distance of 1,000 feet around it, at a scale of one-inch equal to not more than 200 feet. In addition to showing the location of the hazardous waste management facilities for which you are seeking a permit, it must locate all existing and former SWMUs at your facility.
- (2) For each SWMU, provide a description of the unit's functions, material of construction, dimensions, capacity, ancillary systems (piping), etc. If available, provide engineering drawings of the units and their foundations. For closed facilities, also provide

MAY 16 1986

EPA, R3

RE: Certification that the above facility was not used as a storage (TSDF) facility under the interim status acknowledged on Dec. 23, 1980.

Dear Mr. Samuel Israel:

We have not used the above facility as a storage (or Transportation, Storage, Disposal Facility) facility under the interim status, and have retracted licensing as such on February 28, 1984. All hazardous wastes were disposed of through EPA licensed TSDF's using the manifest system, and we did abide by the 1000 KG quantities and accumulation date requirements. Following this an inspection was requested from the PA Department of Environmental Resources to verify that we were operating as a small volume (100 KGS) generator.

I am forwarding the following copies of documents to you:

1. Interim status acknowledgement for storage of our own generated wastes.
2. Retraction for licensing as a TSDF.
3. PA Department of Environmental Resources Inspection as a small volume hazardous waste generator, we now abide by the 100 KG quantity accumulation, then manifest, dispose of thru a licensed TSDF. (or "SWMU")
4. To Whom it May Concern:

I certify that this facility has not been used as a TSDF under the interim status. All hazardous wastes were disposed of using the manifest system through an EPA licensed TSDF. There have not been any hazardous waste releases at this location.

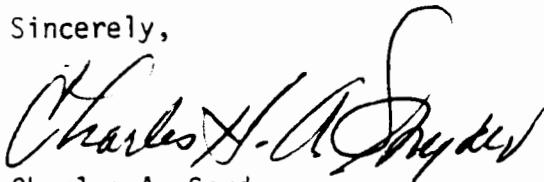

James Petzak
Director of Manufacturing

CHECKLIST FOR SWMU RESPONSES

Name of Facility Fe-Hunt/Te
 EPA I.D. # 440-000-0000
 Date Received 5-1-82

1. Is facility currently storing less than 90 days. YES ☒ NO

2. Did facility claim that they filed in error YES ☒ NO

3. Description/Number of SWMU's

Land Disposal _____ Incinerators _____ Tanks _____
 Land Treatment _____ Surface Impoundments _____ Drums _____
 Other _____

4. Is there evidence of contamination YES _____ NO

Groundwater: YES _____ NO _____
 Surface Water: YES _____ NO _____
 Air: YES _____ NO _____

5. Certification YES _____ NO ☒

6. PRIORITY

HIGH----Reported evidence of release to air, ground or surface water.

MEDIUM--No releases reported but land based SWMUs reported.

LOW-----Everything else.

7. Comments:

Incorrect SWMU

APPENDIX B
